

Innovation Research Lab Exhibition (IRLE) 2017

at Friedrich-Alexander-University Erlangen-Nürnberg
Erlangen, Germany, 7th September 2017

Call for participation For students, institutions and industries

IRLE 2017

Innovation Research Lab at Central Institute of Healthcare Engineering, Friedrich-Alexander-University Erlangen-Nürnberg, Germany, is organizing its annual exhibition on 7th September 2017. Students, institutions and industries are welcomed to present their projects, portfolios and various participation possibilities in interactive stands. The best stands would be rated by all the guests in the categories:

- "Best student project award"
- "Most innovative institute award" and
- "Most innovative industry / department award"

The award would be given by Prof. Dr. Joachim Hornegger, President of the Friedrich-Alexander-University Erlangen-Nürnberg Erlangen, Germany.

For the category of "Best student project award" a total prize of €3000 would be given to the winners. The best teams will be additionally offered Siemens Healthcare Young Student Innovator Fellowships. The fellowship offers a possibility to work at various Innovation Think Tank Labs at Siemens Healthcare where along with a monthly stipend, financial incentives are awarded based on the degree of implementation of the projects.

Submission categories for Best student project award :

OR of the future, 3D printing, machine learning, innovations in consumer electronics, How to improve quality of human lifeNext generation IT (APPs for medical devices), Green hospitals , Scientific improvement e.g. cardio and neuro imaging, Medical devices of the future, Ideas demonstrating cost reduction in medical devices and healthcare systems, Disruptive innovation processes and methodologies, System simulators, radiology of the future, automation in automobiles sector, industry 4.0 etc.

* The students could also present their bachelor or master or Ph.d. thesis projects.

Eligibility:

- Bachelor or Master or Ph.d. student from any discipline at any university
- Creative thinking and out-of-the-box perspective
- Maximum team size: 4 members

Submission categories for institutions and industries :

- Present your institute / industry/ departments portfolio, offerings and participation possibilities for insitutions or students.
- Present innovative products or processes

The submitted projects would be made public during the evaluation process and during the exhibition to various university and industry experts and students.

A joint team of FAU and Siemens experts will select 40 finalists for exhibition.

Applications would be processed on the first come first serve principle so do not want for the deadline and contact IRL core team for any question regarding participation.
